## Contunuity Check

| Step | Action                        | Spec     | Result | Pass/Fail |
|------|-------------------------------|----------|--------|-----------|
| 1.   | TP1 to J104-pin 1             | < 10 Ohm | 1      | Pass      |
|      | TP1 to J106-pin 6, 7, 8       | < 10 Ohm | 2      | Pass      |
| 2.   | TP2 to J105-pin 1             | < 10 Ohm | 1      | Pass      |
|      | TP2 to J106-pin 9, 10         | < 10 Ohm | 2      | Pass      |
| 3.   | TP3 to J104-pin 2             | < 10 Ohm | 1      | Pass      |
|      | TP3 to J105-pin 2             | < 10 Ohm | 2      | Pass      |
|      | TP3 to J106-pin 1, 2, 3, 4, 5 | < 10 Ohm | 3      | Pass      |
| 4.   | J103-pin 1 to J100-pin 3      | < 10 Ohm | 1      | Pass      |
|      | J103-pin 2 to J100-pin 4      | < 10 Ohm | 2      | Pass      |
|      | J103-PIN3 to J100-pin 5       | < 10 Ohm | 3      | Pass      |
| 5.   | J103-pin 4 to J101-pin 3      | < 10 Ohm | 1      | Pass      |
|      | J103-pin 5 to J101-pin 4      | < 10 Ohm | 2      | Pass      |
|      | J103-pin 6 to J101-pin 5      | < 10 Ohm | 3      | Pass      |

| Step | Action                   | Spec     | Result | Pass/Fail |
|------|--------------------------|----------|--------|-----------|
| 6.   | J103-pin 7 to J102-pin 1 | < 10 Ohm | 1      | Pass      |
|      | J103-pin 8 to J102-pin 2 | < 10 Ohm | 2      | Pass      |
|      | J103-pin 9 to J102-pin 3 | < 10 Ohm | 3      | Pass      |

## Final Verification

| Step | Action  | Pass/Fail |
|------|---|-----------|
| 7    | Visually inspect PCB; verify no physically damaged components or connectors | Pass      |
| 8    | Brooks serial number label applied to PCB assembly                          | Pass      |

|   |            |
